Thanks to the many people in the industry who generously gave their time to share their thoughts with the author and the editor.
# Table of Contents

Chapter 1: Overview ................................................................. 1  
Highlights ........................................................................... 1  
Profile of U.S. Public School Teachers .................................. 4  
Methodology ....................................................................... 5  
  Background of Respondents .............................................. 6  

Chapter 2: School-Funded Classroom Budgets ......................... 9  
Budget Dollars per Classroom ............................................... 11  
  Teacher Purchasing Power Through Classroom Budgets ........ 13  
Materials Purchased with School-Based Classroom Budgets ...... 13  

Chapter 3: Teachers’ Personal Funds ....................................... 16  
Out-of-Pocket Spending per Teacher ...................................... 17  
  Teacher Purchasing Power for Instructional Materials ......... 19  
  Through Teachers’ Personal Funds .................................... 19  
Materials Purchased with Teachers’ Personal Funds .......... 19  
Professional Development Purchased with Teachers’ Personal Funds .................................................. 22  

Chapter 4: Finding Materials and Purchasing ......................... 24  
Sources of Information About Instructional Materials and School Supplies .............................................. 24  
  Social Media Usage for Professional Purposes .................. 30  
Sources to Purchase Instructional Materials and School Supplies .................................................. 33  
Factors Influencing the Purchase of Instructional Materials .. 37  
Teachers’ Role in the Purchase Process ................................ 39  

Chapter 5: Instructional Resources: Time and Frequency .......... 42  
Frequency of Use ............................................................... 42  
Time Spent on Various Tasks ................................................ 47  

Chapter 6: Teaching Methods .................................................. 52  

Chapter 7: Technology ............................................................. 57  
Features of Digital Instructional Materials and Assessments ...... 57  
Availability of Classroom Technologies ................................ 60  
Adequacy of Classroom Technologies ................................ 63  
Roadblocks to Using Purchased Digital Products ................. 64  
Challenges of Using Apps in the Classroom ......................... 68  

Chapter 8: Key Takeaways ....................................................... 72  

References ............................................................................. 75  

Appendix: Survey Materials .................................................. 76
List of Figures

Figures

1. Average Hours per Week Spent on Tasks .............................................................. 3
2. Teacher Survey Respondents: Grades Taught ....................................................... 6
3. Teacher Survey Respondents: Subjects Taught ...................................................... 7
4. Teacher Survey Respondents: Years in the Teaching Profession .......................... 7
5. Size of Schools Where Respondents Teach ......................................................... 8
6. Classroom Budget Provided: All Schools .............................................................. 9
7. Classroom Budget Provided by Grade Level ......................................................... 10
8. Classroom Budget Provided by School Size .......................................................... 10
9. Classroom Budget: All Schools ............................................................................ 11
10. Classroom Budget by Grade Level ....................................................................... 12
11. Average Classroom Budget by Grade Level ......................................................... 12
12. Classroom Materials Most Likely to Be Purchased with Classroom Budget ............ 14
13. Classroom Materials Least Likely to Be Purchased with Classroom Budget .......... 15
14. Percent of Teachers Spending Personal Funds: All Schools .............................. 16
15. Personal Funds Spent: All Schools ...................................................................... 17
16. Personal Funds Spent by Grade Level .................................................................. 18
17. Average of Personal Funds Spent by Grade Level ............................................... 18
18. Classroom Materials Most Likely to Be Purchased with Personal Funds ............... 20
19. Classroom Materials Likely to Be Purchased with Personal Funds ...................... 20
20. Classroom Materials Most Likely to Be Purchased with Classroom Budget vs Personal Funds ............................................................................................................. 21
21. Personal Funds Spent on Professional Development: All Schools ......................... 22
22. Sources for Information on Instructional Materials: Included in the Top Five ....... 25
23. Sources for Information on Instructional Materials: Ranked as First Choice ......... 26
24. Top Five Sources for Information on Instructional Materials by Grade Level .......... 27
25. Top Five Sources for Information on Instructional Materials by Years of Experience .... 29
26. Social Media Site Visits for Professional Reasons—Weekly or More Often .......... 30
27. Frequency of Social Media Site Visits for Professional Reasons ............................ 31
28. Social Media Site Visits for Professional Reasons—Weekly or More Often by Grade Level .................................................................................................................. 32
29. Social Media Site Visits for Professional Reasons—Weekly or More Often by Years of Experience ........................................................................................................ 32
30. Sources Used to Purchase Instructional Materials: Included in the Top Five ......... 33
31. Sources Used to Purchase Instructional Materials: Ranked as First Choice .......... 34
32. Top Five Sources Used to Purchase Instructional Materials by Grade Level ........... 35
33. Top Five Sources Used to Purchase Instructional Materials by Years of Experience .. 36
34. Most Important Factors Influencing the Purchase of Instructional Materials .......... 37
35. Most Important Factors Influencing the Purchase of Instructional Materials by Grade Level .................................................................................................................. 38
36. Educators’ Role in Purchasing Materials and Programs ......................................... 39
37. Influences/Participates in Purchasing of Materials and Programs by Grade Level .. 40
38. Source of Instructional Materials Used Weekly or More Often ............................. 43
39. Frequency of Use of Instructional Materials by Source ......................................... 44
40 Source of Instructional Materials Used Weekly or More Often by Grade Level
41 Source of Instructional Materials Used Weekly or More Often by School Size
42 Hours per Week Spent on Tasks
43 Four or More Hours per Week Spent on Tasks
44 Average Hours per Week Spent on Tasks
45 Four or More Hours per Week Spent on Tasks by Grade Level
46 Four or More Hours per Week Spent on Tasks by School Size
47 Degree of Implementation of Classroom Methods
48 Substantial Degree of Implementation of Classroom Methods
49 Substantial Implementation of Classroom Methods by Grade Level
50 Substantial Implementation of Classroom Methods by Years of Experience
51 Features Valued in Digital Instructional Materials
52 Features Valued as High in Digital Instructional Materials by Grade Level
53 Features Valued as High in Digital Instructional Materials by Years of Experience
54 Features Valued as High in Digital Instructional Materials by School Size
55 Technologies Available in Classrooms
56 Technologies Available in Classrooms by Grade Level
57 Adequacy of Instructional Technology
58 Roadblocks to Using Purchased Digital Products: Ranked #1
59 Roadblocks to Using Purchased Digital Products: Ranked in Top Three
60 Roadblocks to Using Purchased Digital Products: Ranked in Top Three by Years of Experience
61 Roadblocks to Using Purchased Digital Products: Ranked in Top Three by School Size
Classroom Trends:
Teachers as Buyers of Instructional Materials and Users of Technology

EdNET Insight is the education industry’s trusted source for information about the current state of the K-12 market and the game-changing trends that impact educators and administrators as well as the companies and organizations that serve them. EdNET Insight combines the proven power of research and analysis with recognized industry experts to deliver an insightful, comprehensive view of the trends and influences that are shaping the education market today—and tomorrow.

State of the K-12 Market 2016 provides an insightful overview of the K-12 education market based on a survey to one of the following key stakeholders: Technology Directors, Instructional Directors, Principals, and Teachers. These reports are essential reading for a thorough and up-to-date understanding of the K-12 education market. Each report in the series, authored by industry analysts, includes results from secondary research and interviews and offers key takeaways and recommendations.
