

MDR INSIGHTS

Teachers Talk Technology

MDR administered a nationwide survey to a sample of K-12 public school teachers to better understand the use of technology as it pertains to the classroom and to the home. The intent was to learn more about the types of devices used by students and teachers, other technologies used in schools, and perceptions on distance learning. The survey fielded in October 2020, and received 996 total completed responses.

EDUCATION APPS

- 60% Zoom
- 57% Kahoot
- 39% Flipgrid
- 38% Bitmoji
- 37% Quizlet
